

MAREK KOBYLARCZYK

FRONT-END DEVELOPER

About me

Hello! I'm **Marek**. As a front-end developer I'm trying to build cool, clean & eye-pleasing websites and superb user experiences. I finished high school with a certificate of IT Specialist. I learn new technologies on my own from many websites.

Data

date of birth

24/03/97

english

B2

> Performing bug fixes and e2e tests

> Supporting other front-end developers with code-review

Education

IT Specialist, Zespół Szkół Elektronicznych im. Bohaterów Westerplatte, Radom

September 2013 - April 2017

Projects

- ReminderApp

github

Project based on Angular, where user can manage reminders. Application is still work-in-progress.
- WeatherApp

github

Project based on frontend and backend, where the user can check the weather for the upcoming hours for many cities.
- TodoApp

github

SPA project written as part of learning the javascript language. The logic of the script is to add / remove tasks in a very simple graphic design.
- Rzeczoznawca majątkowy

github

That was the first commercial project that I had to implement in a very short period time. However, full responsiveness has been maintained.
