MAREK KOBYLARCZYK

FRONT-END DEVELOPER

About me

Hello! I'm **Marek Kobylarczyk,** as a front-end developer I'm trying to build cool, clean & eye-pleasing websites and superb user experiences
I finished high school with a certificate of IT Specialist. I learn new technologies on my own from many websites.

- Acting as a Samsung Brand Ambassador

Education

IT Specialist, Zespół Szkół Elektronicznych im. Bohaterów Westerplatte, Radom
September 2013 - April 2017

Projects

WeatherApp   **github**

My first, more extensive project based on frontend and backend, where the user can check the weather for the upcoming hours for many cities.

TodoApp   **github**

SPA project written as part of learning the javascript language. The logic of the script is to add / remove tasks in a very simple graphic design.

Rzeczoznawca majątkowy   **github**

That was the first commercial project that I had to implement in a very short period time. However, full responsiveness has been maintained.
