MAREK KOBYLARCZYK

Junior Front-end Developer

ⓘ ABOUT ME

My name is Marek Kobylarczyk and I'm junior Front-end Developer.
I finished high school with a certificate of IT Specialist. I learn new technologies on my own from many websites. Web development is something I've always wanted to do.

- Wordpress

📁 PROJECTS

WeatherApp — github
My first, more extensive project based on frontend and backend, where the user can check the weather for the upcoming hours for many cities.

TodoApp — github
SPA project written as part of learning the javascript language. The logic of the script is to add / remove tasks in a very simple graphic design.

Rzeczoznawca majątkowy — github
That was the first commercial project that I had to implement in a very short period time. However, full responsiveness has been maintained.
